## The location of the settings menu has changed

Press the  mark next to the course name to display the settings menu.

## Function introduction

### A good way to search users

- Use first name, last name, student number, university email
- × Don't use multiple words
- × Don't use Kanji
- Recommended to use English names

### Setting deadlines for grading

If you do not want to set a deadline...  
Uncheck "Yes" with "Allow submissions from" and "due date"

Click "edit" with the assignment you want to grade, select "Edit Settings," check "enable" with "Remind me to grade by," and then enter date and time

Please refer to the manual (for faculty and staff) for details.

Please instruct your students not to unenroll themselves from a Moodle course once their official course registration is finalized.

If your students unenroll themselves from your Moodle course, their submitted assignments, files, etc. will be erased, making it difficult to grade their course performance.

Notifications sent from the system will be delivered to your official university email addresses (teachers' official university email addresses look like `foo@m.kyushu-u.ac.jp`)
